

Statement of Accessibility Conformance

Client: Example Org

Date Accreditation issued:

Digital Accessibility Conformance Evaluation

A technical evaluation of 20 pages was conducted. The pages selected constitute an accessibility audit of the website. These pages were selected by Web Key IT and agreed on by the client as representative of the overall accessibility and functionality of the website.

The evaluation was completed in accordance with the WCAG Evaluation Methodology (WCAG-EM) which can be viewed at <http://www.w3.org/TR/WCAG-EM/>.

The pages were audited manually and cross-checked using a team of website evaluators to ensure that the results and comments presented are valid and comprehensive.

Accessibility support baseline:

Website/Application Tested: <http://www.example.org>

Date Tested: date range over which testing was conducted

Guidelines title, version and URI: Web Content Accessibility Guidelines 2.0/2.1 at <https://www.w3.org/TR/WCAG21/>

Conformance Level satisfied: e.g. WCAG 2.0/2.1 to Level AA

Technologies relied on: HTML, CSS, JavaScript, WAI-ARIA

Primary Browser/s: e.g. Internet Explorer 11, Chrome 71

Secondary browsers and platforms: Firefox

Number of pages evaluated:

Platform: Desktop/Mobile/both etc.

Valid from: date of evaluation completion for 12 months

Remaining Issues and Exceptions

There are some aspects on this website, including some third-party content, which the Example Org does not have the ability to bring into conformance with WCAG 2.0 to Level AA.

Third party applications on this website include:

- YouTube videos

- PDFs

Example Org is making every attempt to provide an accessible solution to these aspects

Certificate of Web Key IT Pty Ltd Accreditation

Certification Number: WKIT job number

This website has been evaluated through a rigid manual process of technical audit of all of the sample pages against WCAGT 2.0/2.1 to Level AAA and meets the requirements of WCAG 2.0/2.1 to Level A/AA/AAA

Other Standards

WCAG 2.0 also forms the content of the ISO Standard ISO: **IEC 40500:2012** which can be located at <https://www.iso.org/standard/58625.html>

The content of WCAG forms the standard for digital accessibility compliance in **EN 301549 and AS EN 301549** "Accessibility requirements suitable for public procurement of ICT products and services in Europe" which has been adopted in Australia as AS EN 302549. This standard includes:

- web content
- electronic documents
- non-web software, such as native mobile apps
- Information can be found at <http://www.w3.org/WAI/news/2018-09-13/WCAG-21-EN301549/> and <http://mandate376.standards.eu/standard>.
